### Urinalysis Questionnaire

1. Describe the urination problem?
2. What is the duration of the problem?
3. When was the urine collected and by what method?
4. Has the volume of the urine increased/decreased?
5. Have you noticed your animal straining to urinate?
6. Has there been any change in water consumption?
7. Have there been any recent dietary/medication changes?
8. Is the urine discolored ( i.e. blood seen)?
